

SKIMSTONE® COMPONENT 2 COLORPAKS

Each measurement represents the amount of Component 2 ColorPak added to one gallon of Component 1 Acrylic Solution. Component 3 Powder Mix was then added to the color mixture at a ratio of 1.25 parts Powder Mix to 1 part tinted Acrylic Solution. All colors were applied in a standard 3-coat trowel application and finished with 3 coats of NanoTech Interior Topcoat. Colors may not indicate true color due to printing variances.
